Education

B.Sc. in Computer Applications, Christ University, 2023-2026

Skills

Languages: Python, JavaScript, basic Java

Frontend: HTML, CSS, some exposure to React.js (academic project only)

Databases: MySQL, basic SQL queries

Tools: Git (basic usage), VS Code

Projects

College Attendance System

- Built a simple web page using HTML, CSS, and JavaScript to display attendance records
- Used Python with Flask for a small backend that read from a MySQL database
- Followed a basic tutorial to add a React.js component for a dashboard view, did not build the full frontend independently

Portfolio Website

- Created a static personal portfolio website using HTML and CSS
- Added minor JavaScript for a contact form and simple animations
- Hosted on GitHub Pages

Coursework

- Introduction to Web Development, Database Systems, Object Oriented Programming

Certifications

- Python for Everybody, Coursera (in progress)

Extracurricular

- Member of the college coding club, helped organize one internal coding contest
