

Karthik Nair

karthik.nair@email.com | +91-9012345678

Education

B.Com in Business Analytics, Symbiosis College, 2022-2025

Skills

Data Analysis: Excel, Power BI, basic SQL

Statistics: Descriptive statistics, hypothesis testing

Tools: Tableau, Google Sheets

Languages: Basic Python for data analysis (pandas, numpy)

Projects

Sales Trend Dashboard

- Built an interactive dashboard in Power BI to visualize quarterly sales trends for a mock retail dataset
- Used SQL queries to extract and aggregate data from a relational database
- Presented insights to a panel of faculty as part of a capstone project

Customer Churn Analysis

- Analyzed a customer churn dataset using Python (pandas) to identify key drivers of churn
- Built basic classification models using scikit-learn
- Visualized findings using matplotlib and Tableau

Internship Experience

Data Analyst Intern, RetailCorp (Summer 2025)

- Assisted the analytics team in preparing weekly sales reports using Excel and SQL
- Created dashboards in Tableau for internal stakeholders
- No exposure to web application development or frontend/backend engineering

Coursework

- Business Statistics, Data Visualization, Marketing Analytics

Certifications

- Google Data Analytics Professional Certificate
