Education

B.Tech in Information Technology, PES University, 2023-2027

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST API development

Databases: MySQL, PostgreSQL (no NoSQL experience)

Tools: Git, GitHub, Postman

Projects

Task Management App

- Built a full stack task management application using React.js on the frontend
- Developed backend REST APIs with Node.js and Express.js for task creation, updates, and deletion
- Used PostgreSQL as the relational database, with proper schema design and foreign key relationships
- Used Git for version control with a clear commit history and feature branches

Blog Platform

- Created a blogging platform where users can write and publish posts, using React.js for the UI
- Implemented authentication and authorization using JWT with a Node.js/Express backend
- Stored posts and user data in a MySQL database

Internship Experience

Backend Developer Intern, CodeCraft Technologies (Winter 2025)

- Worked on REST API endpoints for an internal admin tool using Node.js and Express.js
- Wrote unit tests for backend logic and used Git for collaborative development
- Did not work with any NoSQL databases during this internship

Coursework

- Database Management Systems, Web Technologies, Software Engineering Principles
